

Clear entity roles for buyers, banks and compliance reviewers.

Qingdao Hanlong Environmental Protection Technology Co., Ltd. confirms that it holds 100% ownership of Qingdao Gilancy Pet Products Co., Ltd., the Qingdao manufacturing company responsible for the production of the plant-based cat-litter products covered by the relevant commercial program.

Entity responsibilities

ENTITY	RESPONSIBILITY
Qingdao Hanlong Environmental Protection Technology Co., Ltd.	Commercial communication, quotation, contracting, payment coordination and export execution.
Qingdao Gilancy Pet Products Co., Ltd.	Manufacturing, production records, factory quality activities and original documents issued in or to the manufacturer's legal name.

Document-use principles

- 01** Original third-party reports, SDS and factory documents are supplied without changing the legal entity named in the original.
- 02** An original report applies only to the sample, product or formula stated in that document; it is not automatically evidence for every grade, blend or production batch.
- 03** The commercial seller and the report holder may be different entities within the same wholly owned group. This statement explains that relationship; it does not replace the original document.
- 04** Where a buyer, bank, platform or authority needs further corporate or shipment-specific evidence, the required document list will be confirmed case by case.

NOTICE

This statement is intended as a commercial explanation of the group manufacturing arrangement. It is not a legal opinion, customs ruling or substitute for destination-market due diligence.
